ABOUT US

Mileseey is among the top three global companies specializing in high-precision laser distance measurement technology and a leader in commercial smart laser measurement solutions. Established in 2009, it has grown to be a premier provider of integrated technology, products, and services, with a global team of over 300 talents. Mileseey Golf, a sub-brand of Mileseey specializing in smart golf rangefinders, is committed to empowering golf professionals and enthusiasts with advanced laser-ranging, AI tech, yet always keeps users in mind.

BRAND STORY

In 2014, Jore Chou, the founder of the tech brand Mileseey, fell in love with golf. Due to the lack of a professional, user-friendly golf rangefinder, a passion was ignited. "We have to do something," he declared to his team.

Two years later, the Mileseey PF260, a high-performance yet widely accessible rangefinder, was launched. It quickly became a sensation online, with influencers hailing it as the best entry-level golf rangefinder in the market.

Jore knew that it was just the beginning. He and his team continuously push the boundaries of technology, enhancing product performance. Mileseey's tech spree.

The unique Intelligent Multiple Targets Filtering™ Tech, precise green reading tech, and advanced flag-lock and P2P algorithms have consistently elevated Mileseey's golf rangefinders to new heights.

WHY CHOOSE US?

LEADING TECHNOLOGICAL STRENGTHS REMARKABLE QUALITY & PRODUCTIVITY

We are a full spectrum technology company

Boasting a R&D team of over 100 accomplished doctoral researchers & specialists, MILESEEEY has established a comprehensive technological system from bottom to the top, securing over 200 intellectual property patents and standing out as one of the few manufacturers worldwide with complete control over the entire industry chain.

We have remarkable quality & productivity

MILESEEEY has established 10,000-grade purification workshops equipped with advanced testing and experimentation facilities. Our factory boasts an impressive annual production capacity of up to millions of units with exceptional quality. Our products have reached over 100 countries, attracting a user base of more than 3 million.

OUR VISION

To transcend the confines of human perception and unveil a world of limitless possibilities that expands our senses beyond imagination.

GOLF THE ULTIMATE SPIRITUAL ANALOGY

Golfing is a game of awareness, acceptance, embracing persistence, patience, personal responsibility and accountability. It's more about challenging the limit to the course, but a profound exploration of the limits of one's own spirit.

Mileseey golfing rangefinders — your ultimate companion for golfing sport and spiritual pursuits.

2024

S1 will be launched as the world's first AI-powered golf rangefinder with PinPoint Green™ Mode, auto-switch dual display, second-gen P2P measurement, and industry-leading optics.

2023

PF1 was launched as the world's first fully-sealed IP65 golf rangefinder with Intelligent Multiple Targets Filtering™ Technology designed for challenging any weather conditions.

2022

PFS2 was launched as Mileseeey's first premium-level 1,600-yard golf rangefinder with an unprecedented 90% light transmission, 7.5° FOV, and dual display mode.

2021

BPFS2 was launched as Mileseeey; 's first binocular rangefinder honored with the Red Dot Design Award, iF Design Award, and CGD Award.

2020

PF260 was launched as the Mileseeey's first high-precision 650-yard golf rangefinder with an integrated magnetic strip.

2019

PF3H was launched as Mileseeey's first golf rangefinder with an external LCD and the first-gen point-to-point measurement. Mileseeey was the first company to integrate high-precision P2P measurements in traditional manufacturing into golf rangefinders.

16+

Over 16 years' photo-electric technology R&D experience.

100+

over 100 accomplished doctoral researchers and specialists.

300+

Over 300 intellectual property patents secured.

2015

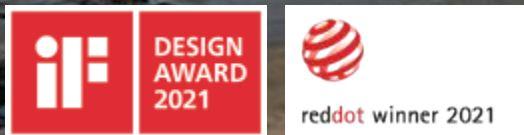

Mileseeey secured the pulsed laser & patented consecutive reflective signal processing tech.

2016

PF3 was launched as the classic 1,600-yard golf rangefinder with scan mode, flag-lock, and slope compensation.

2018

PF210 was launched as the Mileseeey's first golf rangefinder with flag-lock vibration alert, quickly becoming a sensation in the UK and South Korea, claiming the top in annual sales with a new record of a staggering 300,000 units sold.

100

Our products have been sold to over 100 countries.

3M

We have attracted a user base of more than 3 million.

6k

We have established a 6,000 square meters manufacturing center.

OUR GLOBAL BUSINESS

Mileseey stands as a highly sought-after brand in golf rangefinder worldwide, boasting a global reach that spans across more than 100 countries, with a staggering user base beyond 3 million individuals. Setting its sights mainly on the American and European markets, Mileseey's offerings have attracted discerning customers, catering to their unique preferences and demands. This unwavering dedication to customer satisfaction has solidified Mileseey's esteemed reputation in these influential regions.

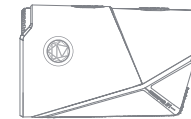

GLOBAL MARKET

GOLF RANGEFINDER

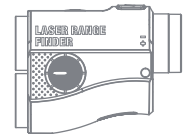

Mileseey makes the undisputed most marvelous laser rangefinders in golf, trusted and used by 3 million users worldwide. Mileseey Golf pushes your game to the next level and helps challenge the limit of the course with advanced laser rangefinders featuring an unrivaled optical system, cutting-edge flag-locking and slope technology, and innovative design with timeless aesthetics.

GenePro S1

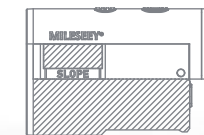

iONME 2

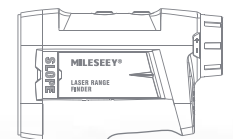

PFS2

PF1

GPF12

PF260 TOUR

GenePro S1

FIRST EVER AI-POWERED GOLF RANGEFINDER

From the fairway to the green, experience PGA-level AI coach's personalized distance measuring service.

AI-Powered Golf Rangefinder

PinPoint Green™ Mode

Dual Red & Black Display

Unique Coach Mode

APP Connectivity

GenePro S1

- Range: 2,000 Yards (1,800+ m)
- Accuracy: ±1 Yard (±1 m)
- Flag Lock Range: 690 Yards (630 m)
- 7.9°(420ft @ 1000 yards) FOV
- 7.5X Magnification
- Objective Lens Diameter: 27mm
- Eyeiece Lens Diamater: 19mm

The GenePro S1 has the world's-first PinPoint Green™ technology for most accurate green distance and elevation data. Powered by advanced AI algorithms, the GenePro S1 automatically detects environmental shifts and adjusts to the mode that enhance golfing prowess. The SmartSlope™ offers most accurate distance by factoring in various environments. Packed with best-in-class optical performance, the GenePro S1 delivers unbeatable clarity and visibility.

Green Master

Your days of squinting and guessing on the green are over. Our PinPoint Green™ technology translates the surface conditions of the green into specific distances and terrain details.

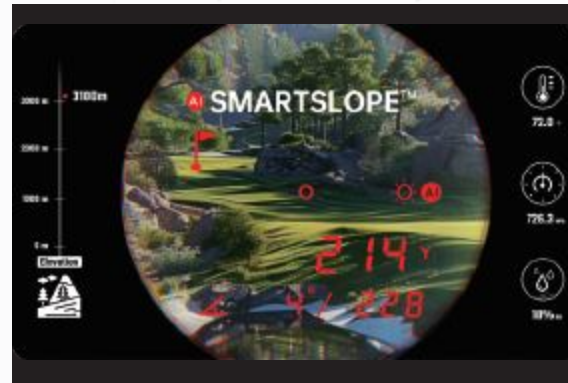

Practice with a PGA-Level Coach

You can measure the distance between any two points on the course by the Point-to-Point (P2P) Measurement feature, which was first applied in professional surveying instruments.

Smartslope™: All-weather Accurate Reading

Humidity, wind, temperature, and air pressure are all added into the GenePro S1 slope tech, bringing you the most precise compensation distances.

Intelligent Multiple Targets Filtering™ Technology

With the Intelligent Multiple Targets Filtering™ Technology, the GenePro S1 can automatically filter out the impacts from water drops, particles, during the misty, rainy, even heavy foggy weather.

Auto Dual-Display Switch

For a comfortable yardage reading experience, GenePro S1 features an AI-driven automatic switch dual display. It automatically switches to red mode in low-light environments and black mode in bright conditions. This pioneering feature ensures sharp readings in various lighting conditions. The intelligent switching display allows you to focus more on your game.

Perfect Visual Experience

Even with a golf rangefinder, do your eyes still feel strained? Try the Gene S1 for a perfect visual experience! With high-definition ED lens groups, the Gene S1 boasts an unparalleled industry-high transmission rate of 95%, delivering brighter images.

Beyond the Pro with GenePro S1

I think it's around 150 yards... or maybe some 200? The GenePro S1 features advanced pin-seeking technology that provides precise and reliable yardage readings.

Always Stand Strong on the Course

Sick of dropping your rangefinder down? We hear you! With a bottom-positioned magnetic mount, the GenePro S1 can stand strong and stable on your cart, making it easy to grab. Meanwhile, the hard alloy material allows it to withstand drop heights of up to 1 meter.

Fusion of Classic and Future Tech

The slope function switch status is clearly visible from all three sides. The fusion of traditional mechanical aesthetics and future cutting-edge technology allows the product to speak for your identity.

Never Let Rain Dampen Your Gadget

Don't let the weather dictate your gadget. With GenePro S1's IP65 protection, you can confidently use it even in heavy rain.

Fog-Free Performance from Start to Finish

With its advanced coated lenses, the S1 golf rangefinder guarantees a crystal-clear view even in dense fog. No more worrying about water droplets or fogging—stay focused on your game and get the most accurate distance readings every time.

PRODUCT PROFILE

Mode & Settings

Model	GenePro S1
Range	2,000 Yards (1,800+ m)
Flag-Lock Range	690 Yards (630 m)
Accuracy	±1 Yard (±1 m)
Field of View	7.9°(420ft @ 1000 yards)
Magnification	7.5X
Accuracy(Fairway long distance measurement)	±1 Yard (±1 m)
Accuracy(PinPoint Green™ mode)	±1 Inch

PFS2

PREMIUM GOLF RANGEFINDER

Play Golf with Expert Coaching, Rain or Shine, Fog or Clear!

>90% High Light Transmission

Wide FOV of 7.5°

Dual Red & Black Display

0.1s Measuring Speed

P2P Coach Mode

PFS2

- Range: 1,100 Yards (1,000 m)
- Accuracy: ±1 Yard (±1 m)
- Flag Lock Range: 500 Yards (450 m)
- Objective Lens Diameter: 23 mm
- P2P Mentor Mode
- L * W * H: 100*73*43 mm
- WEIGHT: 220 g

The PFS2 offers a sleek design with black skid-proof leather and precisely-machined aluminum alloy. Its wide 7.5° wide FOV provides a clear view of the course, while the all-glass optical system ensures excellent contrast and over 90% light transmission. Offering tour-level yardage up to max 1,100 yards and pinpoint accuracy within +/- 1 yard, it inspires exceptional confidence.

A Pro Coach by Your Side

Thanks to Mileseeey's 16-year focus on laser distance measurement technology, you can now utilize the Point-to-Point (P2P) Measurement feature—originally developed for professional surveying instruments—to accurately measure distances between any two points on the course.

Rain or Fog? No Problem for a Pro!

Pros Never Stop Practicing Because of Rain or Fog. With Intelligent Multiple Targets Filtering™ Technology, the PFS2 automatically filters out the effects of water drops and particles, ensuring optimal performance in misty, rainy, or even heavy foggy conditions.

Adapt to Any Light, Bright or Low!

The PFS2 offers the option of an advanced red and black dual display, providing peak visibility, and crystal-clear readability in different lighting conditions, guiding your eyes with exceptional comfort and redefining your viewing experience with every glance.

450 YD: A Pro Golfer's Drive

The Mileseeey PFS2 effortlessly targets and locks flags at distances of over 450 yards, with an ultra accuracy within one yard. The unprecedented flag-lock range and accuracy instill greater confidence in taking long shots.

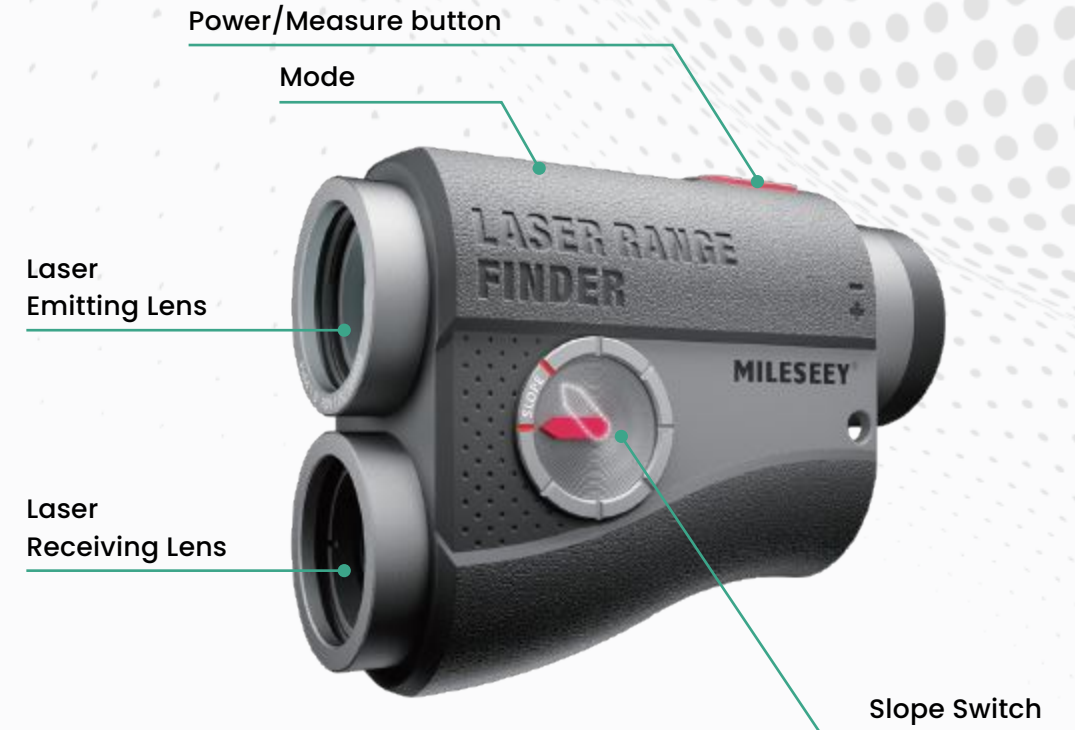

Premium Optic Performance

With a wide 7.5° field of view, the PFS2 provides a much wider and clearer view, changing the way you see the course. Immerse yourself in a broader, more vivid panorama that transforms your perspective of your game.

PFI PRO

ALL-WEATHER GOLF RANGEFINDER

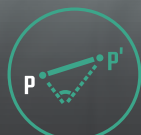

Play Golf with Expert Coaching, Rain or Shine, Fog or Clear!

Compact & Lightweight

IP65 Waterproof

P2P Coach Mode

>90% High Light Transmission

PFI PRO

- Range: 1,100 Yards (1,000 m)
- Accuracy: ±1 Yard (±1 m)
- Flag Lock Range: 450 Yards (410+ m)
- Objective Lens Diameter: 22 mm
- Slope Indicating Light
- L * W * H: 96*63*34 mm
- WEIGHT: 150 g

The PFI PRO is the best 1,100 yardages rangefinder ever specifically designed for challenging weather conditions. With advanced technologies in digital electronics, optics and patented Signal Processing algorithms, complemented with the latest cutting-edge SFEP(Signal Feature Extraction Processing) technology, the PFI PRO provides 0.1s instant flag-locking speed, 90% light transmission, and unrivaled measuring capabilities even in heavy rainy weathers.

Industry-Leading Rain & Fog Mode

Thanks to the WMSS Tech (Water Mist Signal Stripping™ Tech), the PFI PRO provides consistent and accurate measurements even on rainy or foggy days.

Distant & Consistent Pin-Seeking™ Tech

400Yd flag-lock with vibration feedback Within 0.3S. Long range and fast speed bring you intuitive feedback and the thrill of control.

Unprecedented Optical Performance

The anti-glare multi-coated lens system guarantees a more ecstatic viewing experience.

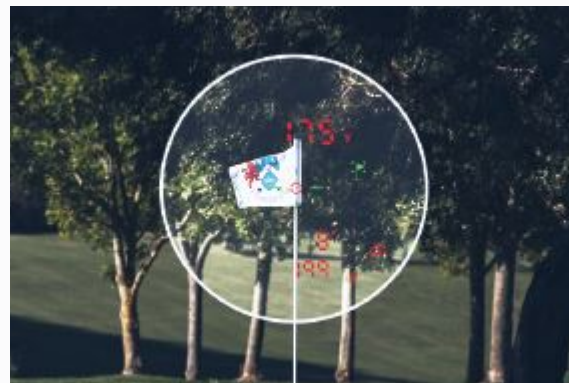

Waterproof Design

PFI PRO, the elf in the rain. With IP65 protection, the PFI Pro can still function well even in heavy rains.

Green & Red OLED Display

Even in low-light environments like forests, you can easily read in this mode.

Light Weight and Portability

Say "goodbye" to bulky guys. The Mileseeey PFI PRO is designed to be ultra-lightweight and compact. With dimensions of only 96*64*36mm and a feather-light weight of merely 100g, the PFI fits right in your pockets.

Light Indicating Slope Switch

The built-in slope switch indicates the slope status through a flashing light and conforms to the USGA rules.

Unique Bottom Bite Magnetic Mount

With a bottom-positioned magnetic mount, the PFI PRO can stand strong and stable on your cart, making it easy to grab.

GPF12

ALUMINIUM MAGNESIUM ALLOY GOLF RANGEFINDER

A rechargeable golf rangefinder featuring sleek design, slope on/off switch, integrated magnetic strip and high durability.

Magnetic Strip

Rechargeable Lithium Battery

Aluminium Magnesium Alloy

Slope Switch

GPF12

- Range: 1,000 Yards (1,000+ m)
- Accuracy: ±1 Yard (±1 m)
- Flag Lock Range: 350 Yards (320+ m)
- Objective Lens Diameter: 23 mm
- Slope Switch
- L * W * H: 110*72.5*40.5 mm
- WEIGHT: 218 g

With advanced target acquisition and slope technology, plus a magnetic strip and precisely-machined Mg-Al housing, the GPF12 seamlessly blends style, functionality, and reliability, delivering an exceptional golfing experience.

Bite Magnetic Mount

The GPF 12's magnetic cart grip enables you to store it on the golf cart or bar or accessory for added conveniences. We've made the magnetic extra strong to ensure you never lose it. You'll have an effortless and worry-free hold of your rangefinder.

Seek Design & High Durability

Crafted with anti-slip rubber with black matte color and the precisely machined magnesium aluminium alloy, the GPF12 delivers a trendy style and boasts high durability.

Marvelous Flag-Picking Range

Our advanced target acquisition technology makes picking up the flag a breeze. Where other rangefinders struggle over 350 yards, the GPF12 locks on it easily. A short vibration burst will be emitted upon hitting the flag, providing the conformation of successful flag locking to give you the confidence to fire away.

Adaptive Slope Technology with Slope Switch

Our pro-level cutting-edge slope technology accurately adjusts your distance based on the variations in elevation to provide the best club selection. The adaptive technology with external slope switch ensures that the slope can be turned off to fully comply to the R&A and USGA rules.

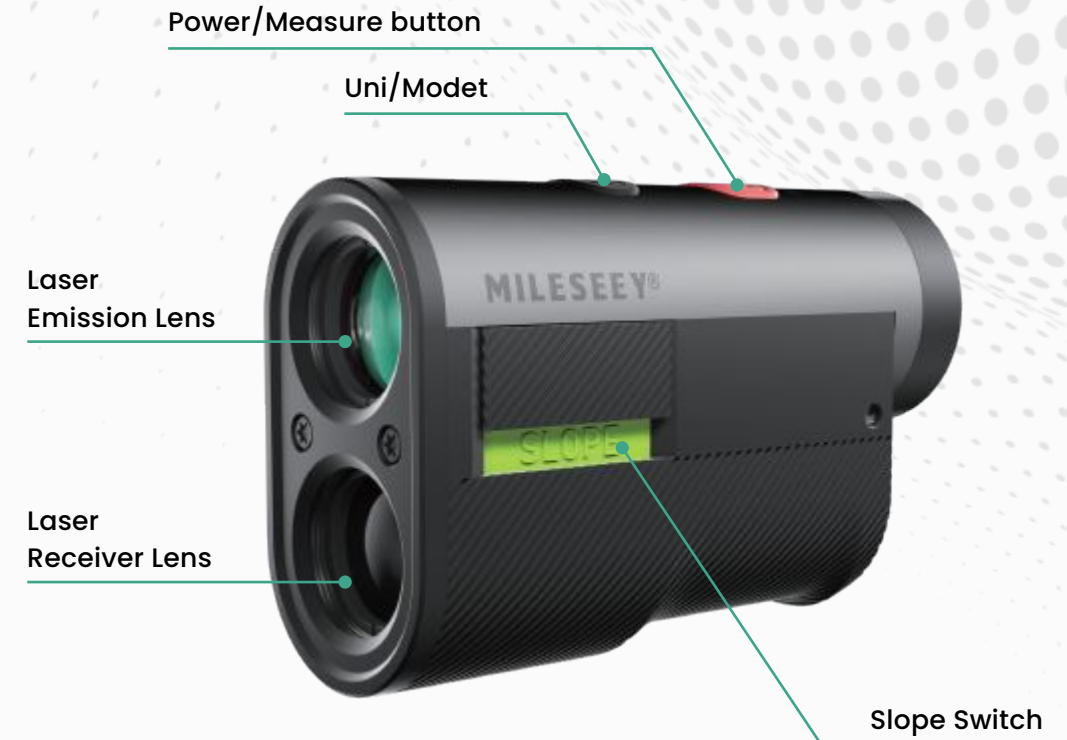

Rechargeable Lithium Battery

The GPF12 is powered by a 1000mAh rechargeable lithium battery that features low weight, up to 1,000 charging times, high energy density, slower capacity loss and long battery life.

- Objective Lens Diameter: 23 mm
- Slope Switch
- L * W * H: 112.5*74*43 mm
- Weight: 192 g

The PF260 TOUR combines advanced features in a compact design. The built-in magnetic function ensures secure attachment to the cart bar. With an advanced slope switch, golfers can easily toggle the slope feature to comply with USGA rules.

Easily Lock On Distant Target

The PF260 TOUR is a powerful golf laser rangefinder, it gives you consistent readings to the flag up to 350 yd and the pin up to 250yd.

Quick and Accurate Pin-Seeking Tech™

Quick and accurate flag-lock FEEDBACK by pulse vibration.

External Slope Switch

Our advanced slope switch tech allows you to ON/OFF the slope feature to conform to the USGA rules.

Slope Compensation

Take your guesswork out of the club selection!

Our next-gen slope tech accurately adjusts to your distance based on the elevations.

Versatile Usage For Disc Golf

The VD Mode is made exclusively for disc golf to measure distance and vertical height in FT.
